PROFILE

Web designer and founder helping South African local businesses get online with clean, fast, done-for-you websites — no jargon, no big budgets. I run two complementary ventures: **SiteCraft SA** (affordable websites for local businesses) and **Come & Buy Enterprise** (everyday-goods retail). I combine hands-on web development with practical local-business outreach and WhatsApp marketing.

VENTURES

SiteCraft SA

Founder · Web Design

- Done-for-you website service for South African local businesses — R1,500 setup + R450/month hosting & support.
- Builds fast, responsive sites so small businesses get found and convert customers online.
- Prospects leads with an automated OpenStreetMap/Overpass flow (Local Lead Finder) to pitch free sample sites.

Come & Buy Enterprise

Founder · Retail

- Retail operation supplying everyday goods to local South African customers, managed end-to-end.
- Built to be low-overhead and repeatable, complementing the digital side of the business.

Local Lead Finder

Tooling · Automation

- Automated prospecting flow using OpenStreetMap / Overpass that finds SA businesses without a website.
- Turns manual lead-hunting into a repeatable pipeline feeding SiteCraft SA clients.

SKILLS

▸ HTML & CSS

▸ Responsive Web Design

▸ WhatsApp Marketing
